

Mechanical

Mechanical Engineering

Poultec offers training to learners with an interest in Mechanical Engineering Technology. The course has been developed to attract learners to engineering related trades and professions. Units available are:

- Tools and Equipment
- Component Manufacture
- Fitting Techniques
- Engineering Machinery Operation
- Welding and Fabrication
- Health and Safety

Engineering

Maintenance

Maintenance Engineering

Poultec can offer an introduction for learners who want to gain the necessary skills and experience to repair and maintain motor vehicles. Units available:

- Tools and Equipment
- Motorcycle Maintenance
- Light Vehicle Maintenance
- Workshop Machinery Maintenance
- Health and Safety

Engineering

Composite

Engineering

Composite Engineering

Poultec have a vast experience in composite manufacturing. Learners can develop and practice skills required for employment in this engineering sector. Training is offered in the following units:

- Tools and Equipment
- Composite Materials
- Composite Processes
- Manufacture
- Finishing
- Health and Safety

Automotive

Engineering

Automotive Engineering

Poultec offers training working with a wide range of motor vehicles. The aim of the course is for learners to develop skills in the following units:

- Tools and Equipment
- Engine Systems
- Engine Cooling Systems
- Vehicle Braking Systems
- Vehicle Electrics
- Health and Safety

Motorsport

Engineering

Motorsport Engineering

Poultec are pleased to be able to offer the experience of working on a range of Motorsport Racing Machines. We can offer training in the following areas for the those who wish to pursue a career in this exciting engineering sector:

- Tools and Equipment
- Competition Engine Systems
- Race Preparation
- Weight Reduction
- Chassis Set Up
- Aerodynamics

Short Courses

in Engineering

Short Courses in Engineering

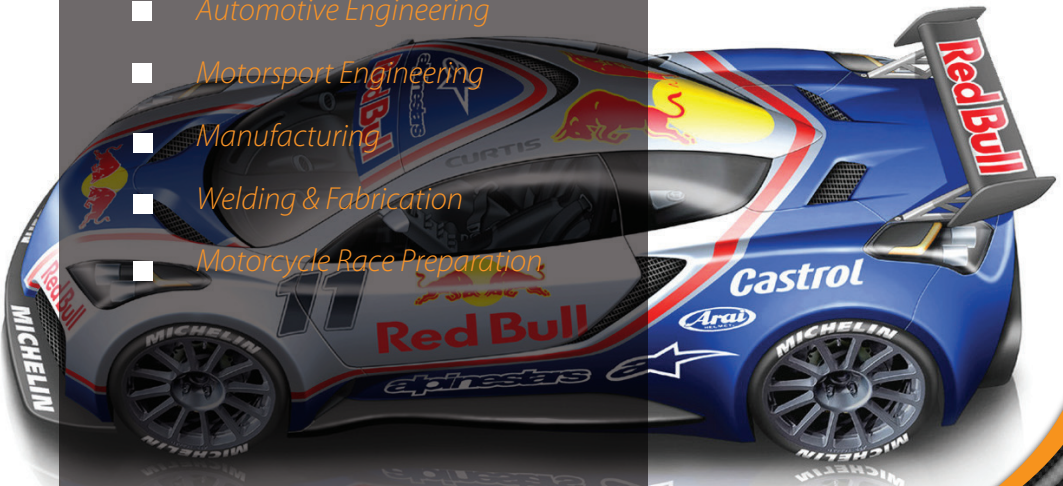

Poultec can also offer Short Courses/Workshops in the following;

- Welding and Fabrication
- Motorcycle Race Preparation
- Motorcycle Maintenance
- Composite Manufacture

Engineering Training
available in the
following areas;

- Mechanical Engineering
- Maintenance Engineering
- Composite Engineering
- Automotive Engineering
- Motorsport Engineering
- Manufacturing
- Welding & Fabrication
- Motorcycle Race Preparation

Engineering

Other Services

Poultec offer a range of services for employers which are tailored to complement our core training delivery. These include;

Consultancy

Poultec's team of Engineering specialists are able to offer advice, guidance and assistance in developing practical resources in areas such as;

- Policy Development / Procedure Manuals
- Preparation for Audits / Compliance
- Staff Development Programmes

Team Building

Poultec offers a suite of team leading courses designed to challenge the individual as well as the group as a whole. Facilities include

- High Ropes
- Segways
- Climbing Wall
- Archery
- Bocarts and more...

Mobile Learning Vehicles

Poultec has invested in three training vehicles, enabling our tutors to take state-of-the-art learning and support facilities to any location. Each vehicle is a tailor-made learning environment, which can also be used for a variety of other purposes.

- **The IT Vehicle** is ideally suited for delivering IT based training in both the community and the workplace and contains high specification laptop computers which provide workstations for ten students and one tutor.
- **The Hospitality Vehicle** is a fully-functioning commercial kitchen on wheels.
- **The Information Vehicle** has been developed as a resource for providing information advice and guidance but can also double as a classroom or mobile office / meeting room.

Training is available in... | Business & Administration | Butchery | Customer Service
| Contact Centre | Engineering | Equine | Fitness | Food & Drink | Hair & Beauty
| Hospitality & Catering | Information Technology | Manufacturing | Retail
| Speedway | Leadership & Management | Poultry Production | Warehousing
