Apprenticeships

Engineering Apprenticeship

Poultec has a track record of successfully delivering Apprenticeships for more than 20 years. Not only can we deliver the training required but we can also assist the employer in the recruitment of the Apprentice. Poultec offers Apprenticeships for people who are starting their career within the engineering environment. Our qualifications include the following;

Engineering Operative Apprenticeship Standard

- Level 2 Diploma for Engineering Operatives
- Level 2 Certificate in Engineering (technical certificate)

This may also include Functional Skills in English and Maths at Level 1. The final part of the Apprenticeship is an independent End Point Assessment consisting of a practical observation and a professional discussion.

in Engineering

Level 2 Certificate in Engineering (technical certificate)

This qualification is studied at our Norwich based engineering centre. It covers the knowledge and theory units and is taught by our qualified welding instructor and will be supported by an element of practical training, to re-enforce and aid in further understanding of the knowledge and theory.

- Working safely in an engineering environment
- Principles of welding and fabrication
- Engineering materials
- Engineering mathematics
- Understanding engineering drawings

City & Guilds

in Engineering

Level 2 Diploma for Engineering Operatives

This qualification consists of a number of practical units, chosen specifically to reflect the work that the learners does in the workplace. This qualification is carried out through on the job training at the candidates place of work. Units include:

- Preparing and using MIG/MAG welding equipment
- Preparing and using TIG welding equipment
- Preparing and using MMA welding equipment
- Carrying out plate and sheet metal fabrication
- Thermal cutting skills using oxy-propane
