Apprenticeship

*Are you finding it difficult
to make the right choice
about your future?*

*Should you follow the route
into higher education or should
you try to get a full time job?*

*There is an alternative; try
an Apprenticeship!*

Traditionally on leaving full time
education you had two options –
continue with education or enter
employment, to begin earning.

Becoming an Apprentice you
can do both!

Apprenticeships

About Apprenticeships

An Apprenticeship is a real job where you receive on-the-job training, learn job-specific skills, gain a recognized qualification and earn a salary. They are a partnership between the Apprentice, employer and training provider. Apprenticeships have been co-created by the industry you want to be a part of. You can gain the knowledge and skills you need to succeed in your chosen career.

To become an Apprentice, you must be living in England, not be in full-time education and not have a degree. Some Apprenticeships have entry requirements but these vary according to each Apprenticeship.

Apprentices do not have to pay anything towards their Apprenticeship, the employer will pay you a salary which is the minimum wage of £4.81 per hour *Correct as of April 2022 *. However, many employers pay more than this.

There are three levels of Apprenticeships

| Intermediate Apprenticeship | Advanced Apprenticeship | Higher Apprenticeship |
|-----------------------------------|---|---|
| Level 2 equivalent GCSE | Level 3 equivalent to A Level | Level 4 equivalent to foundation degree |
| | | Level 5 equivalent to full degree |

Finding an Apprenticeship

We at Poultec can help you find an employer who is looking for an Apprentice just like you, matching your interests, experience and opportunities to your chosen career area.

We have live Apprenticeship vacancies which change weekly on our website, take a look! For any more information or to become an Apprentice please contact us.

Why choose Poultec?

At Poultec it is our mission to provide high quality, flexible learning opportunities across a diverse range of sectors that meets the needs of both employers and learners. Our highly skilled tutors and trainers, combined with our excellent facilities and quality training lead us to be recognised by Ofsted as a good training provider.

Apprenticeships in **AGRICULTURE**

Apprenticeships

Agriculture is the process of producing food, feed, fiber and many other desired products by the cultivation of certain plants and the raising of livestock.

11 billion chicken eggs are laid in the UK each year!

AGRICULTURE

About Agriculture (Poultry Production)

Poultry farming is the form of animal husbandry which raises domesticated birds such as chickens, ducks, turkeys and geese to produce meat or eggs for food. This work requires you to be physically fit, reliable, responsible, able to work alone or as part of a team and enjoy working with animals in an outdoor environment.

About the Apprenticeship

The Agricultural Apprenticeship is focused within the Poultry industry supplying you with the ability and understanding required to progress on a Poultry farm. You could work on a number of different sites including rearing farms, breeding farms, commercial egg sites and hatcheries. Completing tasks such as monitoring and maintaining biosecurity, establishing and maintaining egg production, brood and grow young birds, hatch and dispatch Poultry, plus preparing birds for transportation.

You will work day to day with other employees on the farm gaining on-the-job training and our experienced poultry tutors will visit the workplace monthly to provide on-site training, support and set tasks via an online portfolio for you to complete in-between visits.

The final part of the Apprenticeship will require you to complete an End Point Assessment (EPA), this will be carried out by an independent assessor. The EPA can include a professional discussion, multiple choice knowledge test and an observation or a professional discussion, written knowledge test and observation depending on what level Apprenticeship you are completing. Your tutor will help prepare you and ensure that you are totally ready for this!

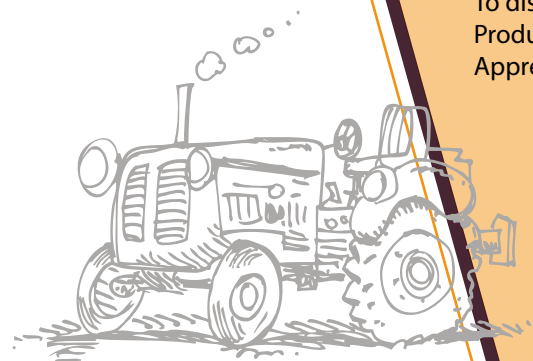

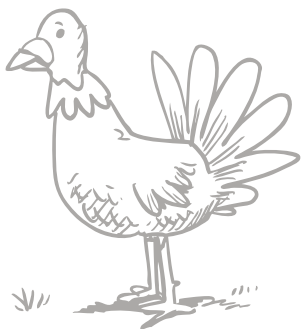

Where could this Apprenticeship take me?

After achieving the Agricultural (Poultry Production) Apprenticeship there are opportunities to continue your studies with a higher Apprenticeship or it could lead to more senior role within the poultry industry for instance leadership or management.

What next?

To discover more about the Agricultural (Poultry Production) Apprenticeships or to become an Apprentice, please contact us.

Apprenticeships in **BUSINESS & ADMINISTRATION**

Apprenticeships

Administrators work on the day-to-day task in an office environment. Every organization has an administrative role, so you can work almost anywhere.

97% of employers say that effective administration is essential to their business!

BUSINESS & ADMINISTRATION

About Business Administration

Administration covers roles that involve organising people and resources, including, executive assistants, secretaries, administration assistants, data entry clerks and office juniors. Without them, information would be hard to find, meetings would be missed and businesses would be less productive.

About the Apprenticeship

The Business and Administration Apprenticeship provides you with the skills and knowledge needed to progress in a business support role. Areas covered include administration, communication, providing reception services, IT skills and specialist areas including legal and medical.

You will be working alongside other employees within the company gaining on-the-job training, your duties will depend on your employer. This work requires a strong sense of responsibility, accuracy and attention to detail. To accompany the study side of the Apprenticeship experienced Poultec tutors will visit the workplace monthly teaching and developing your skills and knowledge as well as setting written work via an online portfolio.

The final part of the Apprenticeship will require you to complete an End Point Assessment, this will be carried out by an independent assessor. It will consist of a multiple-choice test, portfolio-based interview and a project presentation. Your tutor will help prepare you and ensure that you are totally ready for this!

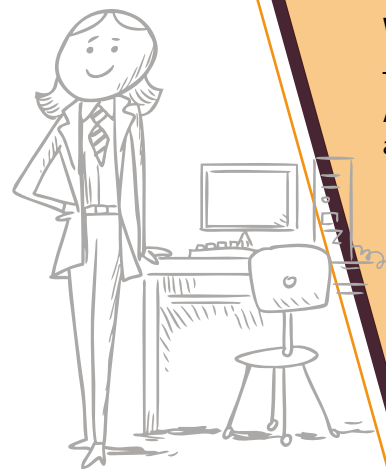

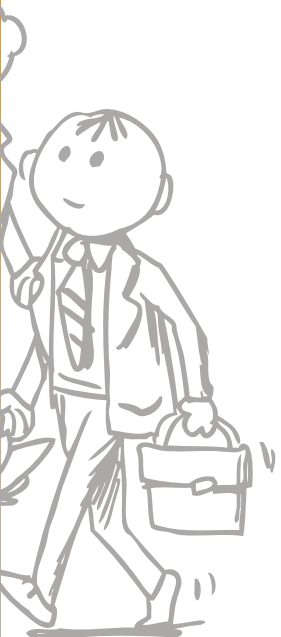

Where could this Apprenticeship take me?

Following a Business and Administration Apprenticeship there are opportunities to continue your studies with a higher Apprenticeship or it could lead to more senior role within the administrative team such as leadership or management.

What next?

To discover more about the Business and Administration Apprenticeship or to become an Apprentice, please contact us.

Apprenticeships in **BUTCHERY**

Apprenticeships

Butchery is the second oldest profession in the world, introduced approximately 1.8 million years ago. Recent media publicity has raised the profile of locally sourced meats which has made customers more aware of the origins of their food, making the local butcher a more popular choice for the consumer.

There are around 5,409 traditional butcher shops in the UK!

BUTCHERY

About Butchery

A butcher is a person who may slaughter animals, dress their flesh, sell their meat, or participate within any combination of these three tasks. They may prepare standard cuts of meat and poultry for sale in retail or wholesale food establishments.

About the Apprenticeship

The Butchery Apprenticeship is designed to equip Apprentices with the skills, knowledge and behaviours required by a butchery employer. You will perform several tasks including sourcing and buying stock, taking delivery and/or collecting stock, storing meat appropriately, using machinery to prepare meat, serving customers over the counter and/or delivering meat to customers and offering advice on suitable meats, cuts, and preparation/cooking techniques.

You will work closely with other employees in either a retail butchery or factory environment depending on where you are employed. They will instruct you on everyday tasks helping you gain on-the-job training. Our experienced tutors will visit the workplace monthly to supply on-site training, support and set tasks via an online portfolio for you to complete in-between visits.

The last part of the Apprenticeship requires you to complete an End Point Assessment which is an independent assessment consisting of a multiple-choice test, practical skills assessment and a vocational competence discussion. Our tutors are here to help prepare you and ensure that you are totally ready for this!

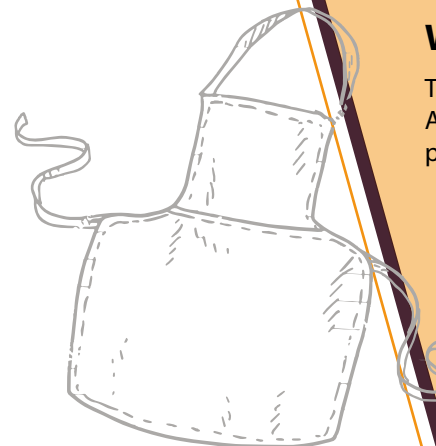

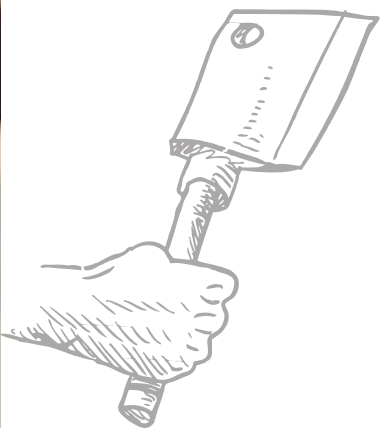

Where could this Apprenticeship take me?

After achieving the Butchery Apprenticeship there are opportunities to continue your studies with a higher Apprenticeship or progress onto becoming a butchery supervisor or opening/owning your butchery shop. You will also be recognised by the Institute of Meat (IOM).

What next?

To discover more about the Butchery Apprenticeship or to become an Apprentice, please contact us.

Apprenticeships in **CUSTOMER SERVICE**

Apprenticeships

Customer Service helps customers have an easy, enjoyable experience within the company and is much more than just solving problems. Improving customer retention by just 5% leads to a 25% to 95% profit increase!

CUSTOMER SERVICE

About Customer Service

Customer Service is the support and service you offer customers before, during, and after a purchase. This makes it a very important part of business and each industry requires different levels of customer service, in the end, the idea of a well-performed service is that of increasing revenues.

About the Apprenticeship

The Customer Service Apprenticeships will enable you to recognise good practice in Customer Service and you'll be able to deal with both routine and more difficult customers. You will become confident about using customer service language and understand the processes designed to make customer service more effective.

You will work closely with other employees within the company gaining on-the-job training, your duties will depend on your employer but generally include processing orders and transactions, delivering information about a company's offerings, handling customer complaints, collecting and analyzing customer feedback. To accompany the study side of the Apprenticeship, experienced Poultec tutors will visit the workplace monthly teaching and developing your skills and knowledge as well as setting written work via an online portfolio.

The last part of the Apprenticeship requires you to complete an End Point Assessment which is an independent assessment consisting of a showcase, a practical observation, a professional discussion or a practical observation, a work-based project and professional discussion depending on what level Apprenticeship you are completing. Your tutor will help prepare you and ensure that you are totally ready for this!

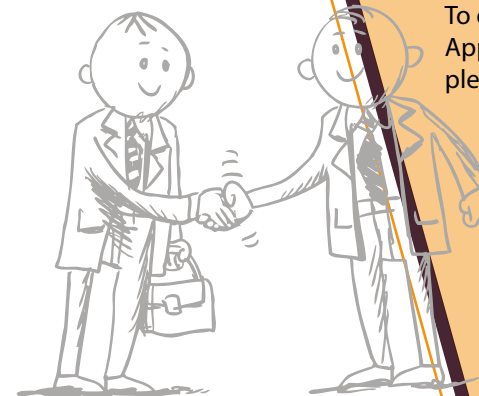

Where could this Apprenticeship take me?

Following a Customer Service Apprenticeship there are opportunities to continue your studies with a higher Apprenticeship or it could lead to more senior role within the team such as leadership or management.

What next?

To discover more about the Customer Service Apprenticeships or to become an Apprentice, please contact us.

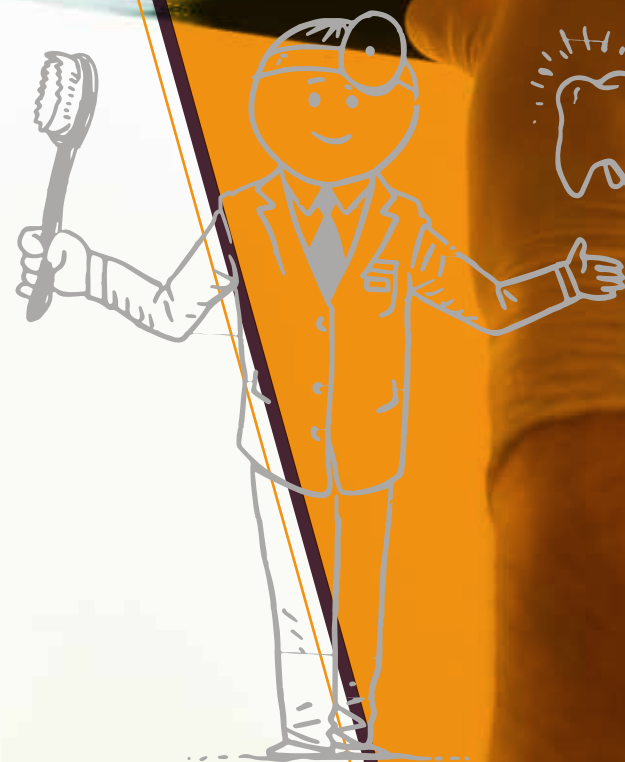

Apprenticeships in **DENTAL**

Apprenticeships

Dental and oral health is an essential part of your overall health and well-being. Poor oral hygiene can lead to dental cavities and gum disease, and has also been linked to heart disease, cancer, and diabetes.

Maintaining healthy teeth and gums is a lifelong commitment!

DENTAL

About Dental

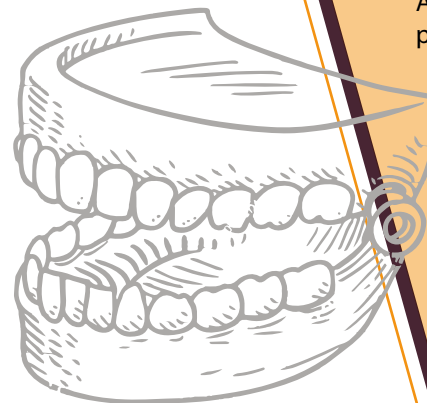

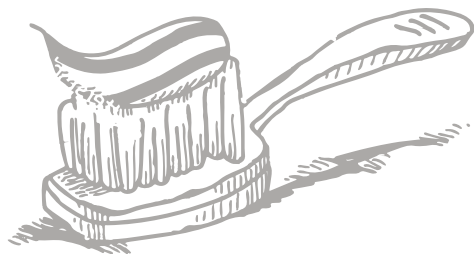

Dental workers are part of a health team who help treat patients and give advice on how to look after oral health. Their job includes cleaning teeth, correcting bite issues, performing surgeries and extractions, and other duties to ensure that their patient's teeth and mouths are healthy.

About the Apprenticeship

The Dental Nursing and Practice Manager Apprenticeships provide specialised training for dental health professionals. It includes chair-side support and a high level of patient care, as well as managing all non-clinical aspects of a dental surgery, leading a practice team and achieving excellent patient care and cost efficiency.

You will be working with other employees within the dental surgery gaining on-the-job training, your duties will depend on your employer. This work requires customer care, problem solving, analytical and logical skills. To accompany the study side of the Apprenticeship experienced Poultec tutors will visit the workplace monthly teaching and developing your skills and knowledge as well as setting written work via an online portfolio.

The final part of the Apprenticeship will require you to complete an End Point Assessment, this will be carried out by an independent assessor. It will consist of an observation in practice and a professional discussion. Your tutor will help prepare you and ensure that you are totally ready for this!

Where could this Apprenticeship take me?

Following a Dental Apprenticeship, you could continue your study with a higher apprenticeship or your career options might include becoming a hygienist.

What next?

To discover more about the Dental Apprenticeships or to become an Apprentice, please contact us.
